MINI SIROCCO FAN-KING KONG SERIES

## Mini Sirocco Fan

### The Black King Kong

- High static pressure application suitable for installation.
- Light weight and compact size facilitates easy installation.
- Coated metal casing provides stronger corrosion resistance.
- Forward curve sirocco fan provides larger air volume at higher static pressure.
- Quiet and energy efficient.

## Introduction

**THE BLACK KING KONG SERIES** is specially designed for versatile application. It is applicable for general building such as office, flat, shopping mall, factory etc.

The perfect matching of the high efficiency motor and the well balanced sirocco impeller deliver greater air volume and static pressure at lower sound level.

### Casing

Manufactured in sheet steel with anti corrosion paint.

Suction and discharge round adaptors facilitate easy installation with round duct.

Compact and light weight.

### Impeller

Centrifugal forward curve sirocco fan.

Provide large air volume at high static pressure.

### Motor

High efficiency moisture-proof, dust proof totally enclosed motor.

Permanently self-lubricated bearing dispensing with the need of re-greasing.

Class E insulation.

Built-in thermal protection device.

### Accessories (Optional)

Outlet Duct Cap

GAC Series

Outlet Duct Cap  
(with Grille)

GACG Series

Intake Louver Kit

GAT Series
